## Compact Display

## For Displaying Velocity

- Easy to read 7-segment display
- Easy operation
- Universal application
- Glare protection
- Power supply $10 \ldots 30 \mathrm{~V}$
- Reverse polarity protection

## Description

Analog display for simple evaluation of analog measuring data. The measuring range for the input signal is $-10 \ldots+10 \mathrm{~V}$, as well as $0 \ldots 20 \mathrm{~mA}$. Several different given parameters are available for selecting the necessary measuring range. The display consists of 7 segments and can be adjusted freely from 0 ... 4 decimals.
For simple programming of display, only the area of the input signal, the selection of the decimal point, characteristic line, and net filter have to be adjusted and the system can be operated.

## Technical Data

| Power supply | V | $10 \ldots 30$ |
| :--- | :--- | ---: |
| Power consumption (max.) | W | 2 |
| Input voltage | V | $0 \ldots 10 /-10 \ldots 10$ |
| Temperature range | ${ }^{\circ} \mathrm{C}$ | $-10 \ldots 50$ |
| Operation | ${ }^{\circ} \mathrm{C}$ | $-25 \ldots 70$ |
| Storage |  | $\mathrm{IP65}$ |
| Protection standard | mm | $112 \times 116 \times 59$ |
| Dimensions (LxWxH) | grams | 750 |
| Weight (incl. suction cup, approx.) |  |  |
| 7-segment display |  |  |
| Display range |  | -19 999 ... 99 999 |
| Height | mm | 14,2 |

The front side of the display should be cleaned by a soft, moistened cloth only. Please do not use solvents or detergents!
