Pressure transmitter MO1-CAN Pressure transmitter M01-CAN

Pressure transmitter M01-CAN

The M01 is especially designed to be used in off-highway vehicles. The EMC, shock and vibration protection is designed for these machines and the rough environment they operate in.

The M01 is available for use in pressure ranges from 0 to 25 bar up to 0 to 800 bar. Within the compensated temperature range the accuracy is 1% overall. The M01 can be used with a medium temperature of up to 150°C (302°F) and the maximum permissible ambient temperature is 125°C (257°F). All wetted parts are of stainless steel (1.4548). In combination with the welded thin-film measuring element, the transmitter has a high media compatibility. An optional damping element can be integrated into the medium access. The housing is also constructed of stainless steel (1.4301).

The M01 is manufactured according to ISO/TS 16949 and is licensed in accordance with e1. The good cost/performance ratio makes this pressure transmitter ideal for series production in off-highway vehicles and for industrial use. OEM versions are also available.

Technical specifications

Pressure range, gauge		0 - 25 bar to 0 - 8	0 - 25 bar to 0 - 800 bar, other ranges available free of charge				
Standard pressure range	bar	50	100	250	400	800	
Overload	bar	100	200	500	800	1000	
Linearity, pressure hysteresis and repeatability	% FS	< 0.5					
Overall accuracy	% FS	< = 1.0 (0 to 80° C / 0 to 176° F) < = 1.5 (-25 to 100° C / -13 to 212° F) < = 2.5 (-40 to 125° C / -40 to 257° F)					
Long-run stability	% FS p.a.	< 0.2					
Media temperature		-40 to 150 °C (-4	-40 to 150 °C (-40 to 302°F)				
Operating temperature		-40 to 125 °C (-4	-40 to 125 °C (-40 to 257°F)				
Storage temperature		-40 to 125 °C (-40 to 257°F)					
Voltage supply		9 - 36 V DC 14 - 36 V DC (0 - 10 V voltage output) allowable ripple @ 50 Hz: 10% 5 V DC (ratiometric output)					
Output signal			4 - 20 mA (2-wire-technique), 0/4-20 mA (3-wire-technique), 0-10 V, 0.5 - 4.5 V (ratiometric at 5V) short circuit protected				
Electrical connection		M12 connector, DIN-Bajonett (DIN 72585); AMP-SuperSeal 1,5; Cable output more connectors on request					
Pressure connection		G 1/4, 1/4 NPT, G	G 1/4, 1/4 NPT, G1/4 with manometer, more pressure connectors on request				
Protection class		IP 65 optional IP	IP 65 optional IP 69k (depends on used electrical connection)				
Starting torque		up to 35 Nm	up to 35 Nm				
EMC		EN 61000-6-2 EN 61000-6-3					
Shock		500g per IEC 600	500g per IEC 60068-2-27 (Shock mechanical)				
Vibration		20g per IEC 6006	20g per IEC 60068-2-6 (Vibration at resonance)				
Material wetted parts		1.4548 / FKM	1.4548 / FKM				
Material housing		1.4301	1.4301				
Material diaphragm		1.4548	1.4548				

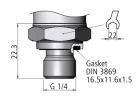

Electrical connection Protection class IP (IEC 60 529)

CIRCULAR PLUG-IN CONNECTOR M 12x1, 5-pole, IP 67

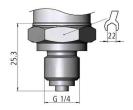

Pressure connection

G 1/4, DIN 3852 T 11 (Form E)

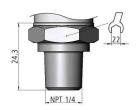

G 1/4 with manometer Manometer per EN837-1 (optional DIN 16288)

Pin assignment STW pressure transmitter (Assignment acc. to CiA DR-303-1)

	Connector	Cable
+U _B	2	black
GND	3	brown
+Wire	4	red
-Wire	5	orange
PE, Chassis	1	white

1/4 NPT per "Nominal width for US-Standard bevelled pipe thread NPT"
